

WORCESTER ENERGY

Residential Rebate Pilot - Rebate Table

Eligible Work (includes Equipment, Associated Labor Costs, etc.):	Rebate Amounts:
Heating & Cooling Water Boilers (Gas/Propane with AFUE* ≥ 90%; Oil with AFUE* ≥ 85%) Steam Boilers (AFUE* ≥ 82%) Warm Air Furnace (Gas/Propane with AFUE* ≥ 95%; Oil with AFUE* ≥ 83%) Ductless Mini-Split Heat Pump** (EER* ≥ 12; HSPF* ≥ 8.2; SEER* ≥ 16)	up to \$3,000¹
Insulation and Air Sealing Closed cell foam and dense-pack cellulose	up to \$2,000¹
Domestic Hot Water On Demand; Heat Pump; Indirect Water Heater	up to \$1,500¹
Heating & Cooling Air Source Heat Pump (EER* ≥ 12, SEER* ≥ 14.5, HSPF* ≥ 8.2)	up to \$1,500¹
= Total not to exceed \$5,000 per dwelling unit	

Other Measures: In addition to the above rebates, energy efficiency or renewable measures not listed above may be eligible for another \$5,000 maximum, not to exceed a total 50% of net costs.

Eligible projects may include but are not limited to: Renewables (solar, combined heat & power, small wind, ground-source heat pump (COP* ≥ 3.3), etc.); deep energy efficiency retrofits; etc. These measures must have a <u>proven, demonstrable payback of 10-years or less</u> to be considered. Applicant will need to provide evidence of 10-year payback with the application. "Other Measures" projects may require 3rd party testing/modeling. Eligible costs include equipment, associated labor costs, etc. Please call to discuss your project's requirements.	up to \$5,000¹
--	----------------------------------

Notes:

- 1) Rebates cannot exceed total net costs (e.g. gross costs less eligible & received MassSave/other energy efficiency incentives) for labor and materials for each project. EPS (Energy Performance Scorecard) costs are rebate eligible.
- 2) Low-income individual owners can be reimbursed up to 100% of net costs up to \$5,000 per dwelling unit (see the Pilot Guide & Requirements for additional information).
- 3) Open to owner and non-owner occupied 1-4 existing residential dwelling units, regardless of income.
- 4) The final determination of eligibility is made by Worcester Energy Program Manager, in their discretion, based on your application and the availability of funds.

* AFUE - Annual Fuel Utilization Efficiency; COP - Coefficient of Performance; EER—Energy Efficiency Ratio; HSPF - Heating Seasonal Performance Factor; SEER—Seasonal Energy Efficiency Ratio.

**Ductless Mini-Split cooling only units are not eligible.

Please see the Pilot Guide & Requirements for more information and to learn how to apply! (www.worcesterenergy.org)
